# COVID-19 Trends

## Remote Ink Signed Notarization (RIN)

A COVID-19 variation of remote notarization that continues to provide the public with access to notarial services in a safe and socially distant way

## RIN Approval and Validation Clauses

Some states' legislatures enacted a statutory provision to approve or validate RINs authorized by executive order or emergency rule

## Commission and Filing Extensions

Notary commission expiration dates and time filing deadlines were extended by COVID-19 related actions in several states

## Driver's License Extensions

Several states extended driver's license and non-driver's ID expiration dates, enabling these IDs to be used to verify identity for notarizations
