# 2024 ELECTIONS THREAT LANDSCAPE

## Physical:

- Intimidation, harassment, or assault of election officials, election workers, and facilities (including Swatting)
- Fentanyl-laced letters sent to election offices
- Insider threats (current/former employees, contractors, partners) with access to facilities, networks, systems and data
- Ballot Box targeting
- Natural Disasters and other disruptions (winter storms, power outages, network outages, supply chain)

## Cyber:

- Phishing, account compromise, unauthorized access
- Website defacement
- Increase in DDoS attacks and Ransomware incidents

## Misinformation/Disinformation:

- Generative AI (Artificial Intelligence) content to spread inaccurate information, **deepfakes** and malware
- Claims of stolen election data or false election results
- Foreign influence efforts/interests (Russia, China, Iran)

## Procedural:

- High turnover (roughly 40% of chief local election officials in 11 Western US States were hired since 2020)

# ELECTION “INCIDENTS” HIGHLIGHTS

## Nationally:

- 08 and 28 OCT- Ballot drop boxes (incendiary devices) (cameras, lighting, extinguishers)
- Low-scale DDOS attacks against campaigns and election offices
- Inclement weather (flooding and tornadoes in Central U.S.)
- Email Bomb Threats (non-credible, yet disruptive)
  - 04-05 NOV- emails from “.RU” to multiple states (30+polling locations)
  - 05-11 NOV- emails from “@cyberfear.com” and “@mailum.com” (State and local election offices)
- Foreign Maligned Influence
  - 25 OCT- Russia- false destruction of ballots
  - 01 NOV- Russia- allegations of voting in multiple locations
  - 03 NOV- Russia- allegations of fraud in “other states”

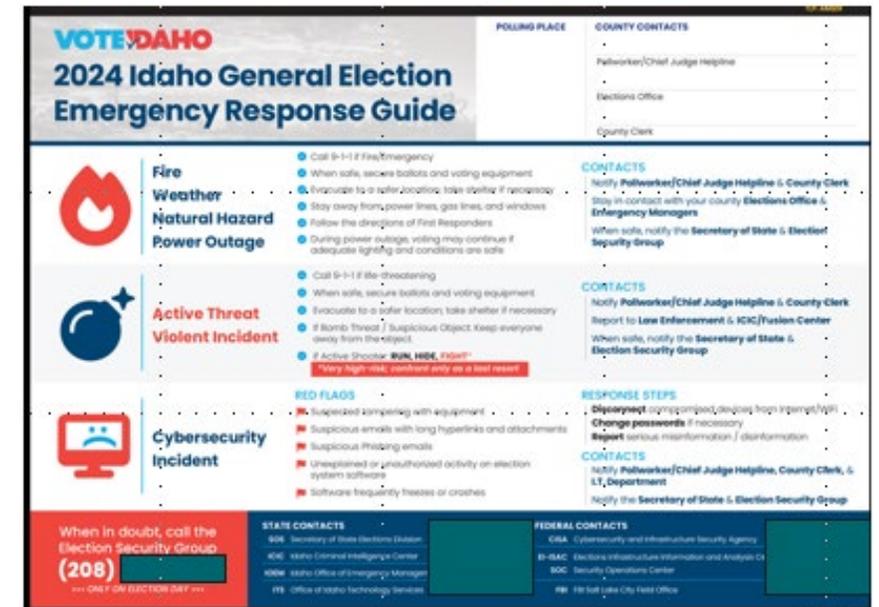

## Idaho:

- 17 SEP- White powder package to IDSOS intercepted by USPS (nationwide warning on 16 SEP; ISP/FBI assist)
- 04 NOV- Swatting of neighboring SOS (ISP protection for IDSOS)
- 05 NOV- Winter Weather Warnings (Central Idaho then Eastern Idaho)
- 05 NOV- Sporadic power outages (Southwest Idaho and Eastern Idaho; up to 900 users)
- 05 NOV- No major emergency, criminal, procedural incidents (handful of long line reports)

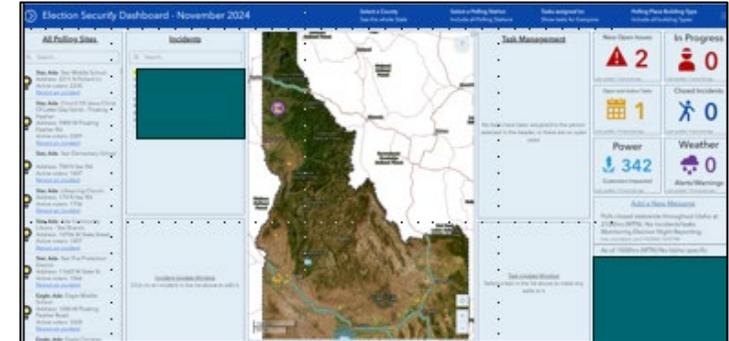

# LESSONS LEARNED AND RECOMMENDATIONS: PREPARATION AND TRAINING

- Elections are known events; begin planning and coordination 1 year out (especially for the Presidential)
- Encourage maximum participation during TTXs and scenario discussions
- Participate in EI-ISAC and consider offerings (utilize IDSOS-provided CrowdStrike)
- Identify weaknesses early and ask for help (cameras, configurations, processes, equipment)
- Use IOEM and CISA to facilitate exercises and discussions
- Seek assistance visits and assessments (CISA, ITS, IDNG)
- Adjust scenarios to current intelligence and threat information
- Document processes

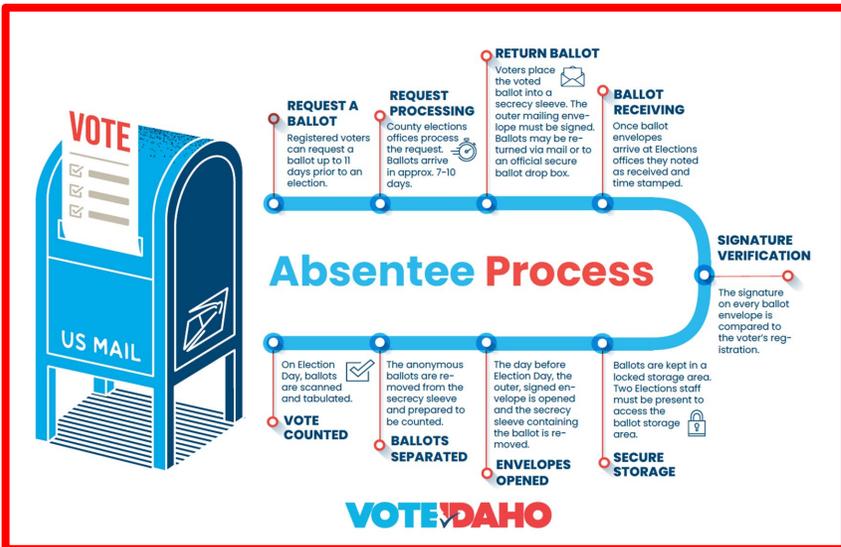

# LESSONS LEARNED AND RECOMMENDATIONS: RELATIONSHIPS AND COLLABORATION

- Continue the “whole-of-state” and “whole-of-county” approach
  - *Include Law Enforcement, Public Information, and Political Parties*
  - *Have vendors and partners on “speed dial”*
- Continue use of Election Security Dashboard
  - *Involve ITS (GIS) early in the dashboard design process*
  - *Add more County users*
  - *Consider a similar dashboard (or modify the existing one) for other events (Cyber?)*
- Maintain meeting attendance and rhythm (adjust only as needed); allow for remote attendance (Teams)
- Don’t need to duplicate or seek to replace existing systems or processes; just augment
- Be ready to assist other agencies, Counties, and States
- Anticipate turnover

# LESSON LEARNEDS AND RECOMMENDATIONS: EDUCATION AND AWARENESS

- Continue use of voteidaho.gov, social media, radio, television, and other engagements
- Continue use of unified messaging and distribution; involve PIER Team and other PIOs/PRs
- Counter disinformation, misinformation, and ignorance with facts, education, and awareness

## 12 PRINCIPLES of IDAHO ELECTIONS

*Our commitment to ensuring the accessibility, integrity, and security of Idaho's elections.*
