# PNP and Government Eligibility Pyramids

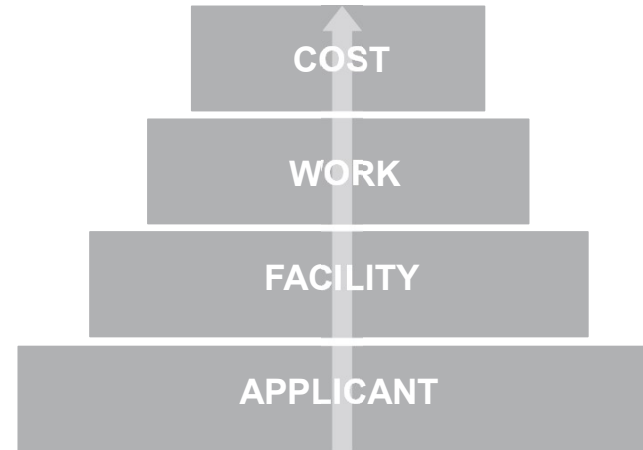

Eligibility of PNPs and Government Applicants is determined differently, though the same criteria are considered for all damages. The ownership of the facility, type of services the PNP provides, and the population served are all part of the eligibility determination.

## Private, Non-Profit Entities (PNPs)

## Government Applicants (State, Local, Territorial and Tribal)

Federal Emergency Management Agency

## Public Assistance Funding for Elections and Polling

---

- FEMA may provide Public Assistance funding to State, local, Tribal, and Territorial government entities for some costs related to elections and polling
- Elections and polling are essential community services of a governmental nature necessary to preserve the proper function of communities.
- Damage must have occurred in a location designated in a Presidential declaration
- Damage must have been caused by the declared incident
- Work must be the legal responsibility of the entity applying for reimbursement
- Costs must be reasonable

**FEMA**

# Public Assistance Funding for Elections and Polling

---

- Examples of reimbursable costs are those related to:
  - Damaged facilities, equipment, and supplies
  - Establishing temporary polling sites
    - Temporary facilities essential to the operation of a temporary polling site, such as parking
    - Notifying voters of the temporary polling site locations
- Examples of non-reimbursable costs are those related to:
  - Undamaged items
  - Rescheduling elections, such as reprinting ballots
